Bathroom ventilation: p. 27

Bed and Breakfast:

Definition: p. 5

Allowances granted to: p. 22

Boil water order: p.12

Boiler / pressure vessel certification: p. 27/28

Carbon monoxide detectors: p. 16/17

Chlorinator:

When needed: p.10

Type: p. 10

Water samples / testing: p.11

Coffeemakers and coffeepots: p. 15/16

Dead end corridors 50': p. 21

Definitions: p.5-9 in alphabetical order

Doors:

Locked in path of egress: p. 18

Self-closing when: p. 19

20-minute fire rated: p. 21

Drinking glasses prepackaged: p. 13

Egress:

Defined: primary p. 7 secondary p. 8

Doors locked: p. 18

Confused by mirror: p. 18

Hid by curtain or coverings: p. 18

Balconies and ramps: p. 20

Means required: p. 21

Existing means not altered: p. 21

Dead end corridors 50': p. 21

Electrical:

Ground fault circuit interrupters: p. 17
Switch and junction boxes protected: p. 17
Bare, frayed wires: p.17
Three prong outlets: p. 17
Circuit boxes: p. 18

Emergency lighting: p. 17

Evacuation route diagrams: p. 20

Existing lodging establishment:

Defined: p.5/6
Requirements: p. 9

Exit signs: p. 17

Extension cords: p. 17

Fire alarm systems:

Defined: p. 6
Tested annually: p. 19
Required in: p. 22
Existing maintained: p. 21

Fire barriers and service openings (laundry chutes)

Defined: p. 6
Provisions: p. 20/21

Fire extinguishers: p. 18/19

Fire rated doors: p. 21

Food: p 15

Fuel burning appliances:

Vented: p. 29
Require carbon monoxide detectors: p. 16/17
Require gas shut off valve: p. 29
Combustion or make up air: p. 30/31

Historic Building:

Definition: p. 6
Provisions: p. 9

Ice: p. 13/14

Ice buckets: p. 14

Insects, rodents and other pests: p. 13

Laundry Chutes: p. 21

LP gas leak tested yearly: p. 29

Light bulb wattage: p. 17

Light sockets, empty: p. 18

New lodging establishment:

Definition: p. 7

Requirements: p. 9/10

Propane gas system leak tested yearly: p. 29

Sewage: p. 12/13

Smoke barriers: p. 20/21

Smoke detectors:

Good repair: p. 19

Wireless: p. 19

Tested monthly: p. 19

Interconnected tested yearly: p. 19

Location: p. 21

Hardwired by 2010: p. 21

Spas:

Definition: p. 8

Depth, maximum temperature (104°), outlets, agitation systems and sign: p. 27

Sprinkler system:

Definition: p. 8

Tested and approved annually: p. 19

Existing maintained: p. 21

Required in new and exceptions: p. 22

Over gas water heaters and furnaces: p. 30

Stairways / walkways/ balconies:

Storage on/ free of snow and ice, p. 16

Railings, p. 20

Swimming pools:

New, designed by an engineer: p. 22

Fencing, gates, access to: p. 23

Depth markings: p. 23

Lifesaving equipment: p. 23/24

Lifeguard sign/when required: p. 24

Disinfection: p. 25

Clarity: p. 25

pH: p. 25

Boundary line: p. 25

Ladders, stairs and handrails: p. 25

Daily operating records: p. 25/26

Chemical storage and use: p. 26

Main drain grates: p. 26
Lighting and electrical: p. 26
Recirculation system operate continuously: p. 26

T&P valves and discharge pipes on water heaters: p. 28

Three prong outlets: p. 17

Trash, garbage and refuse: p. 14/15

Toxic / combustibles, storage: p. 16

Ventilation:

Bathrooms: p. 27

Fuel burning appliances: p. 29

Walls:

Walls, floors, ceilings, furnishings clean and in good repair: p. 13

Textile material on: p. 18

Wastewater: p.12/13

Water sampling: p 10/11

Well construction standards: p. 10
